- Energy-Efficient: Maintenance-free 1 chip super bright LED.
- Dome lens: Impact and heat resistant polycarbonate resin.
- Main Body: Impact and heat resistant ABS resin.
- CE Compliant (12V DC, 24V DC type only).
- Terminal Block: For easy wiring.

Newly developed reflector for LED revolving warning light.

PATLITE LED revolving warning light uses a unique (patented) reflecting system solely designed for these models. Even though the dispersion effect of the LED unit is less than an incandescent bulb, PATLITE LED revolving warning light creates the equivalent dispersion effect with the light reflector.

The newly designed reflector enables not only upward and sideways light reflections, but also downward light reflection that is not achieved by incandescent bulb type revolving warning lights. PATLITE LED revolving warning light is suitable for applications where high visibility from below is required.
