## The West Coast Leader in Automation

### President's Corner

Steve Deas, President

EandM was founded in 1955 and has been the Automation leader on the west coast for many years.

As a family-owned company, we represent the best automation companies in the world and when you buy from EandM, you also get the best support in the world.

Our training classes, workshops, and FREE tech support services are all located on the west coast. Nothing is off-shored. Nothing is forwarded to others. No waiting, no voice mail, no communication confusion - accurate answers now is our commitment to you.

We have huge stock and great prices. When you place a stock order with us today, you will receive it within two days via UPS. We have sales offices and training centers in San Francisco, Irvine, Portland and Seattle and we look forward to hearing from you soon.

### What We Offer

#### Training

We have delivered certified training for over 20 years! We have two full-time trainers and training centers in San Francisco, Irvine, Portland and Seattle. Our multi-day courses are offered in-person or within a virtual remote setting. Custom training classes are also available.

#### Workshops

Everyone is so stretched these days that we don't have time to learn new solutions to intractable problems. Our goal in workshops is to deliver hands-on solutions to problems we see in automation today. And we do it in a half-day for free!

### Contact Us!

**Toll-Free:** (866) 693-2636

EandM.com

# SICK

Sensor Intelligence.

Optical sensors, laser scanners, safety systems and automatic identification products, both optical and RF, for industrial automation.

# SIEMENS

EandM is proud to be the west coast's premier "Siemens Technology Center," offering full product access, training and technical support for Siemens Energy and Automation.

# BALLUFF

Innovative and practical sensing and ID solutions including high precision capacitive, inductive, and magnetostrictive technologies for a wide range of applications and industries.

# FESTO

The leading supplier of pneumatic and electrical automation technology.

**Accu Tech USA**  
First in Motion Solutions

Offers the largest selection of linear guides and ballscrews in North America.

**binder**

A global supplier of high-quality circular connectors & cordsets.

**CONTROL**  
\*a P&F company

Offering advanced industrial protocol gateways such as IO-Link masters, to ruggedized Ethernet and PoE switches, power supplies, and media converters.

**dunkermotoren**

Specializes in DC Motors, Brushless DC Motors, Linear Motors, EC Motors & Servo Motors.

**EXOR**

EXOR provides the technology that helps companies implement their IIOT solutions.

**GRACE**  
ENGINEERED PRODUCTS, INC.

Offers fully customizable, thru-door dataport interfaces; non contact voltage portals; thru-door voltage indicators; patented GFCI outlets; UL classified Panel Covers.

**häwa**

Electronic and electrical enclosures by Haewa, for industrial, telecom, datacom, scientific, and other standard and OEM custom applications.

**hilscher**

A world leader in network connectivity products based on the unique netX chip range.

**HMS**

HMS Industrial Networks develops and manufactures solutions for industrial communication and remote management.

**icotek**

Your specialist for cable entry, strain relief, EMC shielding and enclosure accessories.

**IDEM**

Designer and manufacturer of the next generation of safety interlock switches.

**MENCOM**

Provides high quality, cost effective solutions that meet industrial electrical connector requirements.

**Nanotec**  
PLUG & DRIVE

A leading manufacturer and supplier of innovative high-performance motion control solutions for industry applications!

**NAE**  
North American Electric

A supplier of special purpose and general purpose AC electric motors, controls, and shaft mount reducers.

**OnRobot**

OnRobot delivers a full line of plug-and-produce end-of-arm tooling (EoAT) for collaborative applications.

**PATLITE**

Leading provider of innovative LED status indicating lights, sound alarms, visual and audible communication network systems.

**RED LION**

Industrial ethernet switches and control products.

**ROBOTUNITS**  
THE MODULAR AUTOMATION SYSTEM

Robotunits develops, produces and supplies standardized modular automation systems, consisting of conveyors, linear motion and safety fences.

**ROBROY**  
ENCLOSURES

Robroy offers the most extensive selection of non-metallic enclosures available for diverse industries, as well as interior and exterior applications.

**Roxtec**

Roxtec sealing systems provide for water tight enclosure and wall penetrations of cables and pipes, even with fittings attached.

**SCE** SAGINAW  
CONTROL & ENGINEERING  
Your Enclosure Source®

Saginaw specialize in manufacturing both standard stock and custom designed enclosures.

**SCHMALZ**

One of the world's leading suppliers in vacuum technology.

**SCHUNK**

Get superior clamping and gripping with SCHUNK!

**TM**  
ROBOT

Techman Robot is a stand-alone cobot solution

**YASKAWA**

MOTOMAN ROBOTICS  
Motoman delivers high-quality industrial robots and fully-integrated robotic automation systems.
